

Intelligent Cashflow

“ Fluidly is a great product and set to transform how businesses manage their accounting and cashflow. ”

Alex Price, 93Digital

Making sure you've got enough cash in the bank is a difficult and time-consuming job, but it's critical in order for a business to grow. Fluidly provides AI-powered cashflow forecasting, so you can optimise the cash coming in, the cash going out and everything in between.

Fluidly gives you peace of mind knowing that we've got an eye on your cash position. Be alerted to risks ahead of time and maximise opportunities.

Real-time financial monitoring

Fluidly's cashflow forecast uses AI to produce a powerful look into the future. See instantly the flow of cash coming in, going out and everything in between.

Granular level detail

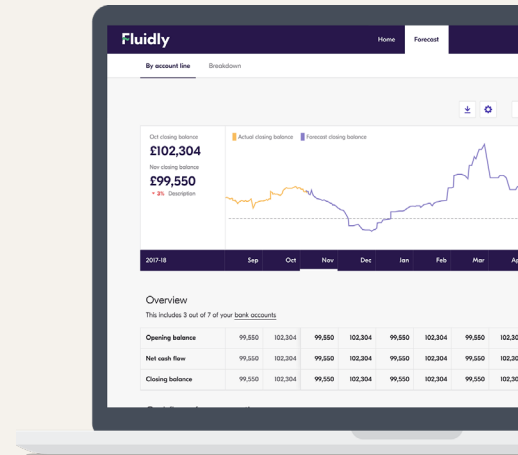

Investigate changes by transaction in the breakdown view. Identify areas of cashflow weakness and understand how to achieve your business goals.

Personalised Insights

Dynamic insights allow businesses to take advantage of personalised financial recommendations and plan ahead with confidence.
